PRESS RELEASE

THAKRAL REPORTS REVENUE OF S\$88.9 MILLION FOR 1QFY2013

- Revenue rose by 27% compared to 1QFY2012 due to introduction of new brands and products as well as increase in sales of higher volume products
- Profit contributed by Investment Division rose to S\$1.5 million from S\$0.1 million in 1QFY2012

Singapore May 14, 2013

Mainboard-listed Thakral Corporation Ltd ("Thakral" or the "Group") reported a 27% increase in its Group revenue to S\$88.9 million for 1QFY2013, up from S\$70.0 million in the previous corresponding quarter.

The revenue increase was due to higher sales in both its core businesses – Distribution and Investment Divisions. The Distribution Division introduced new brands and products while more real estate investment projects were undertaken and completed in Australia.

With its improved turnover, the Group narrowed its net loss to S\$0.2 million in 1QFY2013, against a loss of S\$1.1 million in 4QFY2012 after excluding valuation gains on investment properties. Owing to the softer market demand in China, the Group's gross margin slipped from 9.2% in 1QFY2012 to 6.1% in 1QFY2013.

The Investment Division put up a positive performance – with growth in both revenue and profit as projects in which investments were made in the last year became income producing and reached completion and as investment in new projects were made.

As a result of the Group's effective cost control, overall expenses were lower than the previous corresponding quarter. Distribution expenses of S\$1.3 million were 8% lower than S\$1.5 million incurred in 1QFY2012. Administration expenses were down by about 16% from S\$4.6 million to S\$3.9 million. This was primarily due to lower staff bonus accruals in the current quarter.

Finance costs however increased from S\$0.5 million in 1QFY2012 to S\$1.2 million. This is mainly due to increase in senior debt to finance the GLNG phases 1 and 2 housing projects in Australia. These projects are already delivering positive returns to the Group.

Earnings Per Share and Net Asset Value Per Share

Group Loss Per Share for the quarter under review was 0.01 cent compared to 0.06 cent profit per share in 1QFY2012.

Net Asset Value Per Share as at March 31, 2013 edged up to 4.17 cents from 4.15 cents as at December 31, 2012 because of translation gains from consolidation of subsidiaries.

Working Capital Position

The Group's financial position remains healthy as the total cash and bank balances including non-current fixed deposits was relatively stable at S\$48.4 million as at March 31, 2013 compared to S\$49.3 million as at December 31, 2012.

The Group's operational cash inflow improved from S\$3.6 million in 1QFY2012, to S\$6.4 million in 1QFY2013.

Segmental Performance

Distribution

Revenue at the Distribution Division rose 26% to S\$86.6 million in 1QFY2013 from S\$69.0 million in 1QFY2012.

Lower margins led to the division's loss of S\$0.5 million for the quarter compared to a profit of S\$2.1 million in 1QFY2012, this loss for the current quarter is significantly less than the S\$2.6 million loss incurred in 4QFY2012.

Inventory remained around the same level as in the last quarter in FY2012. The trade receivable days were significantly reduced from 36 days in the last quarter to 28 days as at March 31, 2013.

Investments

Revenue for Investment Division more than doubled to S\$2.3 million for 1QFY2013 compared to S\$1.0 million in 1QFY2012. This was mainly due to higher contribution from the unit in Australia.

Segmental profit from this division also increased to S\$1.5 million from S\$0.1 million in 1QFY2012.

It completed and delivered a total of 30 houses by the end of 1QFY2013 in Gladstone, Australia, under the second phase of the housing development project for GLNG. Construction of the remaining 26 houses is progressing on time and within budget.

As previously announced, this division has committed up to A\$24.05 million funding for the A\$200 million Union Balmain project in Sydney, Australia. The Group intends to sell down up to A\$18 million of the commitment to its capital partners.

Going Forward

Mr. Natarajan Subramaniam, Independent Non-Executive Chairman of Thakral said: "China's economy is expected to grow at a slower pace of 7.7% compared to last year. Our Distribution Division has taken on new brands and products to appeal to a broader customer base, with the aim of delivering improved performance.

"Our Investment Division has delivered a strong set of results in the first quarter of FY2013 and going forward, the outlook remains positive. Housing vacancy rates in Australia's major cities such as Sydney, Melbourne and Brisbane remain low at 1-2%.

"Housing affordability in Australia continues to improve, driven by, interest rate cuts and new developments. The stable residential property market in Australia offers a good opportunity for our Investment Division to grow. The division is currently evaluating a healthy pipeline of projects and we will announce each project after commitments are firmed up.

"In view of the current market conditions in China and the uncertain global economy, the Group will stay prudent in managing market risks while leveraging on new opportunities. Barring any unforeseen circumstances, the Group remains cautiously optimistic in its overall outlook for FY2013."

Notes to the Statements of Financial Position and Consolidated Statement of Cash Flows:

Note 1:

There was no material change in the level of inventories from the previous guarter.

Note 2:

The Group's Investment Division sold-down a part of its investment in a project classified as Loan receivable during the quarter to its new fund, the TCAP Capital Partners Fund No. 1. Funding was advanced for another project – Union Balmain – during the quarter.

The Group consolidates the investment properties (under development as well as completed) and the relevant loan financing provided by the financial institutions for the two GLNG projects on its statement of financial position. The recourse of the financial institutions for the loans provided remains limited to the GLNG projects only. All completed properties are recorded as Investment properties and are being carried at an internal valuation.

The increase in the value of investment properties during the quarter is from the 13 completed units of the GLNG-2 project. The investment properties under development of S\$16.6 million are in respect of the 26 units under the GLNG-2 project.

Increased borrowings from the external parties are mainly a result of the external funding drawn for the second phase of the GLNG project as well as the funding received from the external investors for the Investment Division's fund, the TCAP Capital Partners Fund No. 1, and invested in GLNG-2.

Note 3

The reduction in Trade receivables to S\$24.2 million as at 31 March 2013 from S\$30.7 million as at 31 December 2012 is due to improved collections.

Note 4:

Other Receivables increased to S\$7.2 million as at 31 March 2013 from S\$6.1 million as at 31 December 2012 primarily due to increases in advances to suppliers.

Note 5:

Cash and bank balances are comprised of:

Note 6:

Trade Payables along with Bills and Trust Receipt loans payable were generally level with those as at 31 December 2012. Bills payable and trust receipts relate to short-term trade financing for the purchase of goods provided by banks in Hong Kong and Singapore for the Group's distribution business.

Note 7:

The decrease in bank loans is due to repayment of borrowings in China. Bank loans include an amount of \$\$5.7 million which is a 10-year mortgage loan obtained against, inter alia, the security of certain properties in Hong Kong. The entire outstanding amount of the term loan is expected to be repaid in full by the year 2020 but it has been classified as a current liability in view of accounting rules that require such classification for term loans that are subject to a 'repayment on demand' clause (which provide the lender with a right to demand repayment at any time at its discretion).

Review - Three months ended 31 March 2013

Turnover & Profitability

The general slowdown witnessed in 2012 in the Group's PRC and export markets continued during the quarter ended 31 March 2013. However, there was overall improvement in performance in March 2013, resulting in the Group incurring a marginal loss of S\$0.2 million during the quarter. This loss was much lower than the losses incurred in the preceding 3 quarters, after excluding the one-off non-operational gains reported last year.

The Group's efforts to improve the distribution business through the introduction of new brands and products showed some positive results. The Group's turnover for the quarter increased by 27% to S\$88.9 million from S\$70.0 million in the previous corresponding quarter ended 31 March 2012.

The Group's consolidated gross margin declined to 6.1% for the quarter as compared to 9.2% in the previous corresponding quarter principally because the Distribution business included certain high turnover products that sold at lower margins. Group gross profit declined by 17% to \$\$5.4 million in the quarter as compared to \$\$6.5 million in the previous corresponding quarter.

The Investment Division continues to grow its business, with several project opportunities in the pipeline, resulting in increase of its revenue in comparison with the previous corresponding quarter.

Other income at S\$0.1 million in the current quarter compared to S\$0.6 million in the previous corresponding quarter, excluded the one-off credit of S\$0.4 million upon the severance of a business relationship in India in the earlier period.

The marginal decline in finance income to \$\$0.3 million resulted from a lower level of fixed deposits and interest rates.

Finance costs increased to S\$1.2 million in the latest quarter from S\$0.5 million in the previous corresponding quarter mainly owing to interest on senior debts from financial institutions to finance the GLNG 1 and 2 projects of the Investment Division.

Foreign exchange gains of S\$0.6 million in the latest quarter as compared to S\$0.8 million in the previous corresponding quarter arose mainly from the translation of monetary assets and liabilities denominated in foreign currencies outstanding at the end of the quarter.

Expenses

Overall distribution expenses of S\$1.3 million were lower than those incurred in the previous corresponding quarter.

Administration expenses reduced by about 16%. This was primarily due to lower staff bonus accruals in the current quarter.

Group income tax declined to only S\$0.04 million from S\$0.1 million in the previous corresponding quarter as a result of the lower taxable profits at the PRC Distribution unit in the quarter.

Working Capital and Cash Flow

There was no material change in the level of inventories from the previous quarter.

Improved collections resulted in Trade receivables declining to S\$24.2 million as at 31 March 2013 from S\$30.7 million as at 31 December 2012. Other receivables increased to S\$7.2 million as at 31 March 2013 from S\$6.1 million as at 31 December 2012 primarily due to increases in advances to suppliers.

The Group established during the quarter and managed as Trustee an external investment fund of A\$4.75 million (equivalent to about S\$6.1 million). Certain of the Group's investments in the Australian real estate projects were sold down to the fund, with the sale proceeds being ploughed back into new real estate projects in Australia. Additional funding drawn from financial institutions to finance the ongoing development works for the second phase of the GLNG housing project as well as moneys received from the said investment fund resulted in loans from external parties increasing to S\$56.6 million as at 31 March 2013 from S\$44.7 million as at 31 December 2012. This is reflected by an increase in the Investment properties, which includes the reclassification of 13 houses that were completed during the quarter.

Overall operational cash flow remained positive at S\$6.4 million for the quarter.

Net Asset Value

Net Asset Value per share as at 31 March 2013 improved to 4.17 cents as compared to 4.15 cents as at 31 December 2012 on account of the translation gains arising on consolidation of foreign subsidiaries.

Performance Summary

Distribution

Revenues at the Distribution Division improved to \$\$86.6 million for the quarter ended 31 March 2013 from \$\$69.0 million in the previous corresponding quarter. Lower margins led the Division to record a segmental loss of \$\$0.5 million for the quarter as compared to a profit of \$\$2.1 million in the previous corresponding quarter. Segmental loss for the current quarter is significantly less than the loss of \$\$2.6 million incurred in the immediately preceding quarter.

Investment Division

Revenues at this Division amounted to S\$2.3 million for the current quarter as compared to S\$1.0 million in the previous corresponding quarter. This was mainly due to the improved contribution from the unit in Australia. Sales at the Group's property development unit in Wujiang remained negligible.

The Division completed and delivered a total of 30 houses by the end of the quarter in Gladstone, Australia, under the second phase of the development project for GLNG. Construction of the remaining 26 houses is progressing on time and within budget.

As previously announced, the Division also provided funding for the Union Balmain development in Sydney, Australia, towards the end of the quarter.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

The Group's performance in the quarter met management's expectations.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

GDP growth in China has continued to slow, falling to 7.7% in the first 3 months of 2013, below the 7.9% reported in the final quarter of 2012. While the Distribution Division continues its efforts to introduce new brands and products to diversify its business, it maintains a cautious outlook for the year.

Housing affordability in Australia continues to improve with interest rate cuts and stable market prices. The Investment Division continues to evaluate a pipeline of projects.
