PRESS RELEASE

Thakral records net profit of S\$3.4 million in FY2016; revenue for Investment Division rose 51%

Singapore, 28 February 2017 – SGX Mainboard-listed Thakral Corporation Ltd (“Thakral” or the “Group”) has recorded a profitable year for FY2016.

The Group reported a net profit before tax of S\$4.2 million on revenue of S\$214.9 million in FY2016. The Group’s gross profit rose to S\$45.2 million for the financial year ended 31 December 2016, up 37% from S\$33.1 million the previous year. Gross profit margin had doubled to 21% from a year ago.

The Group’s Investment Division recorded a strong performance reporting S\$36.2 million in revenue, a growth of 51% over the previous financial year.

Overall Group turnover for FY2016 was lower by 35% from S\$331.3 million achieved in the previous corresponding period. This was due to a 42% reduction in sales to S\$178.6 million in the Group’s Lifestyle Division for the year. The division had commenced moving away from certain low margin business during the year and had also faced supply constraints for certain mobility products from Q3FY2016.

Overall Group net profit eased to S\$3.4 million in FY2016 from the previous financial year. The previous financial year’s net profit of S\$8.6 million had been boosted by an unrealised valuation gain of S\$9.9 million mainly from its warehouse properties in Hong Kong. Operating profit meanwhile rose significantly to S\$17.7 million for the year compared to S\$2.6 million the previous financial year.

Distribution expenses declined by 20% to S\$8.3 million for the year from S\$10.3 million the previous year with decrease in advertising and marketing programmes than those than incurred in FY2015. Administration expenses remained largely steady.

The Group’s Investment Division continued to stage a strong performance, with segment profits reporting considerable improvement of 72% to S\$27.2 million and revenue rising 51% to S\$36.2 million.

Earnings Per Share and Net Asset Value Per Share

Net Asset Value per share of 73.72 cents as at 31 December 2016 compared to 73.57 cents as at 31 December 2015. The Group’s earnings per share dipped to 0.32 cent in FY2016.

Working Capital and Cash Flow

The Group saw a net cash inflow from operating activities of S\$4.0 million for FY2016 compared to an outflow of S\$5.0 million in the previous corresponding period.

Inventory fell to S\$18.9 million in FY2016 from S\$25.7 million a year ago as the Group continued to reduce its inventories.

Cash and bank balances remained stable at S\$29.8 million in the year ended 31 December 2016, against the balance of S\$29.6 million previously.

Segmental Performance

Investments

Revenue for the Investment Division grew 51% to S\$36.2 million in FY2016 from S\$24.0 million in the previous financial year. Segment profit of S\$27.2 million was 72% higher compared to S\$15.8 million achieved in the previous year.

The better performance was a result of the recognition of returns from ongoing projects as well as the completion of the Vida project in Brisbane, Australia which has achieved over 94% in the settlement of contracted units; the Portavilla and Residences townhouse projects in Brisbane achieved 100% settlement rate.

The division's GemLife retirement living resorts joint venture officially launched the Bribie Island and Highfields projects in the last quarter of FY2016 which resulted in significant media exposure and buyer enquiries. Bulk earthworks for Bribie Island are almost complete while that for Highfields is due to commence shortly.

The division's other projects are well underway with the Sanctuary Cammeray development expected to be completed later this year. Experience with the Brisbane projects in the last quarter shows the market continues to be resilient for well-placed and competitively priced product.

The strategic locations of the Group's housing projects played a pivotal role in contributing to strong buyer demand.

Lifestyle

The Lifestyle Division turned in a better performance as it cut losses by 35% and enhanced its gross margins. Turnover at the Lifestyle Division declined to S\$178.6 million for the year compared to S\$307.3 million in the prior year. Segment loss shrank to S\$6.6 million in FY2016 from S\$10.0 million in FY2015.

The results reflected the Group's strategic shift towards higher-margin beauty & wellness products during the year, expanding the Lifestyle Division's cooperation with leading e-commerce platforms such as Tmall, JD and Xiao Hong Shu ("Red"), and strengthening its presence in beauty retailers such as Sephora as well as premium chains such as Ole.

Going Forward

Mr. Natarajan Subramaniam, Independent Non-Executive Chairman of Thakral, said: “The Group has continued to deliver positive performance despite challenging global market conditions. Our Investment Division remains a key growth driver – with an even stronger performance in 2016. This is a testament to our proven capabilities to stay resilient amidst global economic instability.”

Both the Group’s key markets – China and Australia – are still enjoying positive growth although at a slower pace. The China economy, which grew by 6.7% in 2016, is expected to remain soft in 2017 as the Economic Intelligence Unit predicts a GDP growth of 6.2%. However, factory activity is picking up and consumer demand remains buoyant.

Mr. Subramaniam added: “China’s domestic consumer economy is set to flourish as retail sales of consumer goods reported a growth of 10.4% to RMB33.23 trillion in 2016. According to published reports, retail sales of consumer goods is forecast to exceed RMB37 trillion, or a 10.2% jump, in 2017 and will contribute to more than 70 per cent of China’s economic growth¹. We see a lot of evidence that demand for products enhancing a personal sense of wellness rather than being daily necessities continue to accelerate. China’s beauty market is set to become the biggest in the world this year according to some projections². With many foreign beauty, wellness and lifestyle brands seeking to expand in China, our solid and scalable relationships with leading channels and our growing recognition as a partner of choice for these brands, the Group is well-placed to serve this demand.”

Meanwhile, the Australian economy is expected to grow by about 2% in 2016³ and is expected to pick up to 3% in 2017 and 2018⁴. In the property and housing market, housing prices in Sydney are expected to rise to 9-10% with New South Wales’ faster growth rate, while for Brisbane could ease as more supply comes on-stream with the completion of housing projects. However, the Group’s strategy to branch out into the retirement living sector is expected to provide stable and sustainable returns over the medium to long-term.

- i. Depreciation includes accelerated amortization of leasehold improvements, furniture and fixtures and office equipment by a subsidiary in the Lifestyle Division in Singapore upon the downsizing of its operations.
- ii. The loss on derivative financial instruments in the year arose mainly from the fair valuation of the hedge for the capital invested in the Japanese property holding vehicle as well as a short-term option taken during the 3rd quarter (since squared) to hedge against the movement in the Australian Dollar. The gain in the quarter represents the increase in fair value of the former.

THAKRAL CORPORATION LTD AND SUBSIDIARIES

Notes to the Consolidated Income Statement and Consolidated Statement of Comprehensive Income:

Note 6:

The Group recognized a net valuation impairment charge in the year which arose mainly from the GLNG houses in Australia and which will continue until the end of the lease terms. In the previous year, the Group had recorded a net unrealized valuation gain mainly on its warehouse properties in Hong Kong.

Note 7:

Finance income declined in the period in view of a bank deposit having been used to repay bank borrowings during the previous financial year.

Finance costs were higher mainly due to the interest on investor funding on a development project in Australia.

Note 8:

Foreign exchange translation loss for the year arose mainly from the exchange loss realized on the settlement of an Australian dollar denominated receivable and includes the loss from the translation of monetary assets and liabilities, denominated in foreign currencies, outstanding as at the end of the year.

Note 9:

The share of loss from joint ventures comprises the start-up phase operational costs of the Group's Gemlife joint venture for the development and management of retirement villages.

Note 10:

Income tax for the year includes the provisions for tax payable on the sale of a land parcel in Australia as well as on the profits at certain Australian entities.

Note 11:

The increase in non-controlling interests share of profits for the year and quarter is mainly due to the higher profits at the Investment Division.

Note 12:

These unrealized translation differences arose due to fluctuations in exchange rates of the foreign currencies in which the net assets of the Group's overseas operations are denominated.

Note 13:

The amount represents Thakral Japan Properties Pte Ltd (TJP)'s fair value gain on its available-for-sale investment in the Japanese property holding vehicle (of which the relevant portion is allocated to the non-controlling interests in TJP).

Notes to the Statements of Financial Position and Consolidated Statement of Cash Flows:

Note 1:

Cash and bank balances are comprised of:

	<u>31-Dec-16</u>	<u>31-Dec-15</u>
Cash and cash equivalents	S\$7.7 million	S\$5.5 million
Fixed deposits with maturities exceeding three months	S\$0.1 million	S\$0.1 million
Fixed deposits that have been pledged to banks against bills payables and trust receipts (see note 9 below)	S\$1.3 million	S\$1.3 million
Fixed deposits that have been pledged to banks against bank loans	S\$20.7 million	S\$22.7 million
Total (including non-current fixed deposits)	<u>S\$29.8 million</u>	<u>S\$29.6 million</u>

Pledged deposits maturing in the next 12 months are included under current assets while pledged deposits with remaining maturities over 1 year are included under non-current assets.

Note 2:

The reduction in trade receivables is due to collections.

Note 3:

Other receivables and prepayments increased mainly due to the reclassification of accrued interest on fixed deposits maturing in the next 12 months, accrual of interest as well as an increase in the distribution receivable from the Japanese property holding vehicle. Other receivables include the interest receivable on fixed deposits with maturities of less than one year. Interest accrued on deposits with remaining maturities over 1 year is included under non-current assets.

Note 4:

The aggregate increase in loans receivable arises from the additional investments made in ongoing and new projects in Australia along with the accrual of returns during the year. The increase in loans receivable under current assets includes the reclassification (from non-current assets) as well as the recognition of returns on projects expected to be completed within the next 12 months.

The Group consolidates the investment properties and the relevant bank loans for the two GLNG projects on its statement of financial position. The recourse of the bank for the loans provided remains limited to the GLNG projects only.

Note 5:

Assets held for sale are comprised of:

	<u>30-Dec-16</u>	<u>31-Dec-15</u>
	<u>S\$'000</u>	<u>S\$'000</u>

Properties, plant and equipment (Leasehold land and buildings)	3,521	3,448
Total	<u>40,140</u>	<u>38,115</u>

The investment properties represent the warehouse properties in Hong Kong which are intended to be sold. Leasehold land and buildings represent the warehouse currently in use by the Group in Hong Kong.

Note 6:

The reduction in inventories is from the on-going clearance of stocks.

Note 7:

This represents the Group's interest in the joint venture entities for the GemLife retirement living business.

Note 8:

The Group had invested in commercial properties in Japan during the last quarter of 2014 through a pooled investment structure which accounted for this as an available-for-sale investment.

Derivative financial instruments represent the mark-to-market values of the Group's medium-term forex option taken to hedge its capital invested in the Japanese property holding vehicle as at the respective dates.

Review – Year ended 31 December 2016

The Group's Investment Division reported revenue of S\$36.2 million for the financial year ended 31 December 2016 ("FY2016"), a growth of 51% over the previous financial year. The increased revenue in the last quarter was a result of the recognition of returns from ongoing projects and also the completion of the Vida project in Australia. With the Lifestyle Division's sales reducing by about 42% to S\$178.6 million for the year due to its focus on higher-margin business together with the curtailment of supply of certain mobility products effectively from Q3-FY16, overall Group turnover declined to S\$214.9 million in the year from S\$331.3 million in the prior year.

Group gross profit for FY2016, including the income realized upon the completion of the Vida project in Australia, thus improved by 37% to S\$45.2 million compared to S\$33.1 million earned in the previous year. This, combined with the better margins by both the Investment Division and Lifestyle division, saw group gross profit margin rise to 21% for the year compared to 10% in the previous financial year.

The Group earned a net profit before tax of S\$4.2 million for FY2016 which included a net impairment charge of S\$7.3 million comprised of an S\$8.4 million charge against the GLNG properties in Australia and a gain of S\$1.0 million for the Group's Hong Kong and China investment properties. In the previous year, the Group had recognized an unrealized valuation gain of S\$9.9 million mainly on its warehouse properties in Hong Kong. The Group is continuing its efforts to maximize and realize value from the Hong Kong warehouse properties.

Operating profit grew significantly to S\$17.7 million for the year compared to S\$2.6 million for the previous financial year.

Finance Income and Costs

Finance income declined by 17% to S\$1.0 million for the current year compared to S\$1.2 million in the previous year mainly due to the comparative effect of a deposit having been lifted partway through the previous financial year.

Finance costs increased to S\$5.3 million in the year from S\$4.6 million in the previous financial year and include interest S\$0.8 million payable to investors of a development project in Australia.

Expenses

Distribution expenses declined by 20% to S\$8.3 million for the year from S\$10.3 million in the previous year. The prior period had included the appearance fees for Cristiano Ronaldo and other promotional costs in relation to the launch and promotion of the Sixpad fitness equipment in China.

Administration expenses remained largely level with last year.

Other operating expenses declined to S\$0.7 million for the current year compared to S\$1.2 million in the previous financial year mainly due to an increase in fair value of about S\$0.5 million during the latest quarter of the underlying hedge on the

THAKRAL CORPORATION LTD AND SUBSIDIARIES

capital invested in the Japanese property holding vehicle.

Foreign exchange losses for the year and the latest quarter arose mainly from the settlement of certain Australian-dollar denominated receivables as well as from the translation of foreign currency denominated monetary assets and liabilities outstanding as at the end of the year.

The Group's joint venture in GemLife for resort style retirement living is currently in the start-up phase with earthworks almost complete on the Bribie Island site and pre-sales underway for both Bribie and Highfields sites. The Group expensed off S\$0.4 million for its share of operational costs incurred by the joint venture in the period prior to the commencement of recognition of sales revenue.

Attributable Profit

The Group reported a profit attributable to shareholders of S\$0.4 million against a profit of S\$6.1 million in the previous financial year.

Working Capital and Cash Flow

The Group continued to bring down its Inventory by reducing it to S\$18.9 million as at 31 December 2016 from S\$25.7 million as at 31 December 2015. The inventory turnover period for the year rose to 48 days against 33 days for the previous financial year largely due to lower turnover.

Trade receivables also reduced to S\$9.9 million as at 31 December 2016 from S\$12.3 million as at 31 December 2015. The trade receivables turnover period for the year was 19 days against 14 days for the previous financial year.

Other receivables and prepayments increased to S\$10.8 million as at 31 December 2016 from S\$6.8 million as at 31 December 2015 mainly due to the reclassification of accrued interest on fixed deposits maturing in the next 12 months, accrual of interest as well as an increase in the distribution receivable from the Japanese property holding vehicle.

Other payables increased to S\$21.6 million as at 31 December 2016 from S\$15.2 million as at 31 December 2015 mainly due to incentive as well as withholding tax and other accruals.

The Group saw a net cash inflow from operating activities of S\$4.0 million for the current period compared to an outflow of S\$5.0 million in the previous corresponding period from the movement in working capital components as well as the advances mentioned above.

Net Asset Value

Performance Summary

Investments

The Investment Division's revenues for FY2016 increased to S\$36.2 million from S\$24.0 million in the previous year, an advance of 51%. Segment profit of S\$27.2 million grew by 72% compared to S\$15.8 million achieved in the previous year. Settlement of the Vida project in Brisbane has been satisfactory with over 94% of contracted units settling by the year end and the balance being settled after the balance sheet date. Our Portavilla and Residences townhouse projects in Brisbane achieved 100% settlement rate. During the quarter, the Division's GemLife joint venture officially launched the Bribie Island and Highfields projects, which resulted in significant media exposure and buyer enquiry. Bulk earthworks have almost been completed at Bribie, on time and budget, and are due to commence shortly at Highfields. The Division's other projects are well underway with the Sanctuary Cammeray development expected to be completed later this year. Our experience with the Brisbane projects in the last quarter shows the market continues to be resilient for well-placed and competitively priced product.

Lifestyle

In view of the reasons noted above, turnover at this Division declined to S\$178.6 million for the year compared to S\$307.3 million in the prior year. Segment loss declined by 35% to S\$6.6 million in the year from S\$10.0 million.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

The performance of both Divisions met management's expectations. The Lifestyle Division continues its efforts to achieve a turnaround.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The Australian economy is expected to grow by about 2% in 2016¹. Home loans rates began to rise towards the end of the December quarter, despite the RBA cash rate being unchanged. Lenders raised rates with further hikes expected in 2017. While housing prices are not anticipated to decline, slower price growth is expected in 2017 with prices for houses and apartments in Sydney expected to continue to grow strongly in view of the NSW economy's faster growth pace. Prices in Brisbane, however, are expected to be under pressure in view of the significant number of apartment completions during the year. The Group's diversification into the retirement living segment of the property market is expected to provide resilient and sustainable returns less affected by movements in the core housing market.

China's economy grew by 6.7% in 2016 compared to 6.9% a year earlier, marking its slowest growth since 1990. Retail sales, after adjusting for price factors, increased 9.6%, well below last year's 10.6%. The economy is expected to slow further with the Economist Intelligence Unit predicting GDP growth of 6.2% in 2017. Apart from other internal factors looming over the Chinese economy, trade policies introduced by the new US administration are a key unknown in 2017 which could significantly impact the Chinese and global economies. In addition, the Lifestyle Division's products are yet to reach sufficient volumes to enable the division to return to profitability although the division continues its efforts to turn around. To this end, the Group will be embarking on a push to acquire new health and beauty related brands for distribution in China and Hong Kong in 2017. As such, the Group maintains its cautious outlook for this Division for 2017.
